

# JTCVS Structural and Endovascular

*JTCVS Structural and Endovascular* is an open-access journal focused on transcatheter, endovascular, and surgical interventions for structural heart and aortic diseases. The Journal covers all topics related to aortic, mitral, tricuspid, and pulmonary valve diseases as well as the aorta and branch arteries. Submissions devoted to imaging of the aorta, 3-D surgical planning, innovative techniques, and evolving technologies to improve patient care are all welcome.
